CALCUTTA, THE 25TH APRIL 1930.

RESOLUTION No. 1216MNE.

Withdrawal of the exemption from survey of certain classes of inland steam and motor vessels.

Under an order contained in this department notification No. 78 Mne., dated the 17th August 1917, inland steam-vessels, which do not ply for hire for passenger traffic or which, though plying for hire for passenger traffic, are not capable of carrying more than twelve passengers, are exempt from the provisions of chapter II of the Inland Steam-Vessels Act, 1917. At present these vessels are, therefore, not amenable to survey under the above Act. The Local Government, with the sanction of the Government of India, have decided that the above exemption should be withdrawn, so that all inland steam and motor vessels will be subject to the provisions of chapter II of the Act, except the following which, subject to the sanction of the Government of India, will continue to remain exempt:—

- (1) Ordinary rowing boats and sailing boats fitted with a detachable outboard motor.
- (2) Sailing yachts fitted with auxiliary motors.
- (3) Motor boats forming part of a steam vessel's equipment under the Board of Trade regulations for boats and life-saving appliances.
- (4) Small motor launches not exceeding 30 feet in length and 20 B. H. P. belonging to private persons and used exclusively for personal recreation by the owner, his family, and friends.

It has been decided that in the case of motor craft the order withdrawing the exemption will have effect on or about the 1st October 1930 and in the case of steam craft on or about the 1st February 1931. Formal notifications withdrawing the exemption will issue on or about those dates. Owners and masters of

inland steam and motor vessels, other than those mentioned above as exceptions, are hereby informed that after those dates, it will be illegal for any such vessel to ply without a certificate of survey granted under the Act. In the event of the survey, applied for in the prescribed manner, not being complete before the date on which the exemption is withdrawn, no relaxation will be allowed on that ground, unless the application for survey was made, in the case of a motor vessel, on or before the 1st June 1930 and, in the case of a steam-vessel, on or before the 1st July 1930.

2. Applications for surveys to be carried out at Calcutta, Kushtia and Khulna will be received by the Principal Engineer and Ship Surveyor, Calcutta, and for surveys to be carried out at Chittagong, Barisal, Narayanganj and Goulundo, by the Engineer and Ship Surveyor, Chittagong. Forms of application for survey and copies of the rules regarding the making of surveys may be obtained by post from either of the above mentioned officers. It should be understood that first surveys can be carried out only at Calcutta, Chittagong and Narayanganj, where facilities exist for the docking of vessels. Subsequent surveys may be carried out at any of the places of survey mentioned above. On the occasion of the first survey, all vessels must be docked for external examination, but at the subsequent surveys, the surveyor may exercise his discretion as to the external examination, provided that the bottom is examined at least once in four years.

3. Ordered that the resolution be published in the *Calcutta Gazette* and that copies be supplied to the Press for publication. Copies should also be supplied to Commissioners of Divisions, the Principal Officer, Mercantile Marine Department, Calcutta District, the Port Officer, Chittagong, the Inland Steamer Companies in the Presidency, the Bengal, the Indian and the Bengal National Chambers of Commerce and the Indian Merchants' Association, Chittagong.

DARJEELING, THE 23RD APRIL 1930.

RESOLUTION—No. 44T.A.I.

Minister-in-charge: The Hon'ble Khan Bahadur Maulvi K. G. M. Faruqi.

In paragraph 57 of their report the Royal Commission on Agriculture in India recommended that a committee should be established in each major province to work in close co-operation with the Council of Agricultural Research.

2. The Royal Commission were of opinion that local Governments should have full discretion regarding the constitution of provincial committees. They, however, suggested that the Director of Agriculture and the Director of Veterinary Services should invariably be members as well as the Principals of the Agricultural and Veterinary Colleges where these exist, and that there should be in addition at least one scientific expert from the staff of the Agricultural and Veterinary Colleges or Departments, one representative of pure science from the provincial University or Universities, and one or more non-official members.

With regard to the functions of the provincial committees, it was suggested by the Commission that they could best be determined after the Council of Agricultural Research had been constituted, but amongst its duties would be the preparation of programmes of research to be laid before the Council of Agricultural Research and a report on any application from any association or persons within the province for a grant from the Council.

3. The Government of India, Department of Education, Health and Lands, in constituting the Imperial Council of Agricultural Research in resolution No. 826Agri., dated the 23rd May 1929, expressed the hope that all provincial Governments would take early steps to constitute provincial committees to work in co-operation with the Council of Research on the lines suggested by the Royal Commission, subject to such modifications as might be considered necessary in the light of local conditions.

4. The Government of Bengal (Ministry of Agriculture) have given careful consideration to these suggestions and have now decided to establish an Agricultural Research Committee in Bengal. The Bengal Agricultural Research Committee will be entirely distinct from the

Provincial Board of Agriculture reconstituted in resolution No. 43T.A.I., dated 23rd April 1930, and its main function will be to co-operate with the Imperial Council of Agricultural Research in matters connected with the advancement of agricultural and veterinary research, as well as to assist in maintaining touch between that body and agricultural activities in this Presidency. Its primary duty will be to examine all programmes of development and research, which Government may propose to refer to the Imperial Council of Agricultural Research, and report on any application from any association or persons within the province for a grant from the Council. It will also advise the local Government on any scheme or project which may be referred to it for opinion.

5. The constitution of the committee will be as follows:—

1. The Hon'ble Minister in charge of the Agricultural Department, *President*.

2. The Secretary to the Government of Bengal in the Agriculture and Industries Department.

3. The Director of Agriculture, Bengal.

4. The Director, Civil Veterinary Department, and Veterinary Adviser to the Government of Bengal.

5. The Principal, Bengal Veterinary College.

6. One scientific officer of the Agricultural Department to be nominated by Director of Agriculture.

7. One representative of pure science from the Dacca University to be nominated by that University.

8. One representative of pure science from the Calcutta University to be nominated by that University.

9. Professor N. N. Ganguli, C.I.E., Ph.D.

10. Mr. I. S. K. Ghuznavi, B.Sc., Mymensingh.

The Director of Agriculture will act as Secretary to the committee.

Government reserve the power to add to the number of members. The committee shall have powers to co-opt members possessing expert knowledge and, if necessary, to appoint sub-committees to deal with special problems.

6. The non-official members will hold office for three years.

Order—Ordered that a copy of the resolution be forwarded to the Director of Agriculture, Veterinary Adviser, Principal, Bengal Veterinary College, and the Vice-Chancellors of the Dacca and Calcutta Universities and to the non-official members of the committee, for information.

Ordered also that the resolution be published in the *Calcutta Gazette* for general information.

IRRIGATION DEPARTMENT.

NOTIFICATION.

[Third publication.]

No. 2-I.—1st April 1930.—In exercise of the powers conferred on him by sections 78 and 99 of Act III (B. C.) of 1876, the Governor in Council proposes to pass the following rules and to fix the undermentioned rates to be charged for water supplied from the Bakreswar Canal in the Birbhum district :—

Leases for a term of years.

1. The country served by the canals shall be mapped out into blocks of convenient size in accordance with the features of the grounds, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officer under the guidance and control of the Divisional Canal Officer.

2. Each block determined as above shall be numbered and recorded with its gross and irrigable areas in registers to be maintained by the Subdivisional Canal Officer. The blocks shall also be marked on maps to be maintained by the same officer.

3. Leases for not more than seven years may be granted for the whole irrigable area of a block or for definite parts of a block under the following conditions :—

I.—Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently, a separate lease may be granted for each part.

II.—All leases within one block shall be so granted that they may expire on the same date.

III.—No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a channel exists, which in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

4. The Superintending Engineer shall fix from time to time the gross area for which and the limits of the canal within which, leases for a term of years may be granted.

5. Maps of all villages in which lands have been brought under lease for a term of years, or in which there is any probability of such leases being taken, shall be kept in the Subdivisional Canal Office. These maps to be at scale 32" = 1 mile when such are available, and elsewhere at scale 16" = 1 mile.

6. The preliminary application for a lease for a term of years, either new or renewal, may be of an informal nature, but it must be in writing. It may be presented and shall be received either at the Subdivisional or Sectional Canal Office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land in question constitutes a definite block or a definite part of a block, and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct, and shall ask his formal approval to the lease being proceeded with. On receipt of such approval the Subdivisional Canal Officer shall forward the preliminary application to the Executive Engineer, Bankura Division, in order that the detailed assessment may be taken in hand. The lands to be brought under lease shall be indicated on a copy of the map alluded to in rule 5.

7. The Executive Engineer on receipt of the application shall depute an amin to prepare the *khassra* or detailed assessment paper. This shall be done on the ground with the aid of the revenue survey map and *khassra*. Should the survey map and *khassra* not be available, the amin shall make a sketch map, and shall measure the areas of the holdings with a chain or measuring-rod.

8. When the amin has completed the *khassra*, the Executive Engineer shall forward it to the Subdivisional Canal Officer for approval.

9. As soon as the *khassra* has been approved by the Subdivisional Canal Officer, he shall return it to the Executive Engineer endorsed with his signature in token of approval.

The Executive Engineer shall then prepare a *khutian* or abstract of the *khassra*, and shall have the form of application, given as Appendix No. I to these rules, filled up and signed or marked by each of the applicants, in the presence of two witnesses.

When the application has been completely signed, the Executive Engineer shall send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given as Appendix No. III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer by means of his Sectional Officer. The Divisional Canal Officer shall return the application to the Executive Engineer, Revenue Division, with a copy of the permit for record.

10. Should it happen that the cultivators of the block proposed for lease are not unanimous, and that certain of them decline to sign the application, the Executive Engineer shall report the matter to the Subdivisional Canal Officer. This officer shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer is authorised to grant a lease when not less than 95 per cent. of the net irrigable area of the block has been signed for. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reasons for granting the lease shall be fully recorded.

Covering Leases.

11. Applicants for a lease for a term of years who may require water before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given as Appendix No. II to these rules. This application must be signed in the presence of the tahsildar or of some other responsible officer nominated for the purpose by the Subdivisional Canal Officer. The signatures should be those of the leading cultivators in the block in question and they should represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given as Appendix No. IV to these rules, and shall at once supply water.

Season Leases.

12. Applications for water to irrigate spring rice or other crops between the 16th November and 15th June, may be presented at the Subdivisional Canal Office or to the Sectional Officer. They must be in the form given as Appendix No. V to these rules.

In the applications the areas for which water is required must be specified but the rate will be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given as Appendix No. VI to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

Supply of water.

13. The Divisional Canal Officer shall control the supply of water throughout the Division in his charge.

14. No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease.

15. Under the forms of irrigation lease in use, no specific supply of water is promised: but the undertaking is to give such a supply to each lessee as may be necessary for the lands leased. The supply shall be given, as may be require or the proper cultivation of the crops under irrigation, according to the exigencies of the season.

16. The Divisional Canal Officer is empowered to give the required supply by rotation, should this be advisable for the efficient working of the canals in his charge. In such a case, he is required to give the lessees written notice informing them of the periods when they will be supplied with water.

Collection of water-rates.

17. The rates due for water supplied shall be collected by the Executive Engineer or other officer in charge of the Revenue Division, Bankura, through his staff of tahsildars and peons. All *khatians* or demand statements shall be signed by the Executive Engineer or other officer in charge of the Revenue Division after scrutiny in his office.

18. At the time of preparation of the *khatian* in the Executive Engineer's office, each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved for the purpose.

19. Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

20. For the purposes of accounts of control over establishment, and of general administration, the Executive Engineer or other officer in charge of the Revenue Division is in the position of an Executive Engineer in charge of a Division, and is directly subordinate to the Superintending Engineer. In regard to any proceedings taken under the Public Demands Recovery Act the Executive Engineer is subject to the control of the Collector of the district.

Unauthorized use of water and waste of water.

21. Should it be necessary to take action under the provisions of sections 79 and 80 of the Act, proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorized use or the waste of water shall be made by the Subdivisional Canal Officer and his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall in deciding the case give his reasons for or against assessment, both as regards the facts and as regards the law; and he shall determine the rate to be charged, subject to the provision in the schedule of rates attached to these rules.

22. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment paper prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or *khatian* shall be sent to the officer in charge of the Revenue Division, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Act shall count from the date on which the statement of the charge may be furnished to the person assessed, which date shall be endorsed on it.

23. No proceedings shall be instituted if the unauthorized use or the waste of water have occurred through the act or neglect of a Canal Officer or subordinate employed on the canal. During the irrigation of autumn rice, the passing on of surplus water from leased to unleased fields is not an unauthorized use of water.

Complaints and Applications.

24. All complaints or applications with respect to the supply of water, to defective drainage, and generally with respect to the administration of the canal, shall be received on presentation at either divisional or subdivisional canal offices.

Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officers for disposal at his discretion.

Any such complaints or applications, if presented to the Executive Engineer or to his staff, shall be returned endorsed with instructions as to the proper office at which to present them. If received by post, they shall be at once forwarded to the Divisional or Subdivisional Canal Officer.

25. Complaints or applications with respect to corrections of the assessment, with respect to the actions of the amins in assessing, and with respect to the actions of the tahsildars and other staff employed in collections, shall be received at the office of the Executive Engineer or other officer in charge of the Revenue Division.

26. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

27. The officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

28. The orders passed on all complaints or applications shall be in writing and a copy of every order shall be furnished to the complainant or applicant.

The copy of order may be sent by post (registered), if this is convenient.

The period within which an appeal may be presented under section 91 of the Act shall be reckoned from the date on which the copy of the order is received by the person.

29. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record on them such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, that officer may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is heard.

30. The Divisional Canal Officer is empowered to revise the proceedings of his Subdivisional Canal Officers, and the Superintending Engineer is empowered to call for and to revise the proceedings of all officers under his control.

Remissions and Alterations of Demand.

31. Whenever the crop on land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given by the Divisional Canal Officer, provided that the person claiming remission shall have applied for such not less than 15 days before the reaping of the crop.

32. On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer is empowered to remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not, in that season, derived any benefit from the supply of canal water.

33. Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part, provided that the person asking for remission shall have applied at least 15 days before the reaping of the crop.

34. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of the Divisional Canal Officer.

35. Revisions of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes in the occupation of lands shall be made under the orders of the Executive Engineer or other officer in charge of the Revenue Division, provided that no change involving any increase or decrease in the total area under lease for a term of years shall be made without the concurrence of the Divisional Canal Officer.

36. Remissions of water-rates on account of injury to the crops caused by inundation, by blight, by storms or by any extraordinary cause will only be allowed under the special orders of the Local Government.

Irrecoverable Demands.

37. The Superintending Engineer is empowered to sanction the write-off of those demands which are reported, after due enquiry by the Executive Engineer or other officer in charge of the Revenue Division, as irrecoverable owing to the poverty of the defaulter or of his successors in case of his death, or owing to the defaulter having absconded.

Cultivators' Representatives.

38. Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the officer in charge of the Revenue Division shall, with the concurrence of the Subdivisional Canal Officer, select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.

39. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters : -

- (i) In the preparation of applications for leases.
- (ii) In the measurement of irrigated lands.
- (iii) In recording the names of the occupiers of the holdings.
- (iv) In receiving demand statements and distributing to the cultivator the individual notices of assessment.
- (v) In attending, when required, at enquiries into complaints.
- (vi) In reporting to the Executive Engineer any changes in the occupancy of lands under lease.
- (vii) In assisting the tahsildar in collecting rates.

40. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or in their own occupation which may lie within the boundaries of the leased area, subject to a total limit of 3 per cent. of the area assessed. The Executive Engineer or other officer in charge of the Revenue Division may disallow in whole or in part this free irrigation, and may recover the rates which would otherwise have been payable in whole or in part if the assistance specified in rule 39 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.

41. The Executive Engineer shall maintain in his office a register containing a record of the names of all representatives and of the areas of free irrigation allowed to each.

42. Applicants for season leases shall be required to nominate one of their number who must have a substantial interest in the land to be irrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 39 and shall receive remuneration on the same scale as in rule 40.

Power to decline or cancel leases.

43. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted or used for the irrigation of lands not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be cancelled with effect from the 16th of June next following. The order to cancel a lease shall be passed before the 1st of April of the year in which it is to take effect.

44. The Superintending Engineer may give directions to the Divisional Canal Officer to decline applications for irrigation leases of lands in villages where there has been persistent difficulty in realizing the water-rates, until all arrears have been paid.

He may further suspend, or altogether cancel, any lease for a term of years, if on the 1st June of any year water-rates to the extent of half the demand for one year are in arrears. Previous notice of intention to put this rule in force shall be given not later than the 15th April preceding.

Miscellaneous.

45. Tanks may be supplied with canal-water without charge, when water can be made available without injury to the cultivation dependant on a canal, under the following conditions :—

- (i) That the water is to be exclusively used for domestic purposes, or for watering cattle.
- (ii) That a channel exists through which water can pass without waste.
- (iii) That the water shall only be supplied on the written order of the Sub-divisional Canal Officer.
- (iv) That any new outlet or sluice which may be required to allow of the supply being given shall be provided at the cost of the persons who ask for the water.
- (v) That the supply of water may be stopped at any time if it is found that it is being misused.

46. Except when a public right-of-way exists, no person shall, without the permission expressed in writing of the Divisional or Subdivisional Canal Officer, pass himself, or cause any animal or vehicle to pass, on or across any of the works, banks or channels of a canal, or drainage work which is part of the canal system except by means of such bridges, fords and ferries as may have been provided for the purpose.

Any person who, after due warning, commits a breach of this rule, may be proceeded against under section 93, clause (9), of the Irrigation Act.

47. The use of any part of the banks or berms of any canal, drainage work which is part of the canal system, or flood embankment which is subject to the provisions of the Irrigation Act, as a place for relieving the calls of nature, is prohibited. Any person who after due warning commits a breach of this rule may be proceeded against under section 93, clause (9), of the Irrigation Act.

48. Should water be required for purposes other than irrigation, it may be supplied when available at a rate of one rupee per 10,000 cubic feet of water.

49. No officer employed on the canals, unless especially exempted by the Governor in Council from the operation of this rule, shall have any interest in the distribution of water from any of the canals or purchase or bid for any Government property sold thereon either in his own name or in the name of another, or jointly, or in shares with others.

CHAPTER II.

FORMATION OF THE CONTRACT.

Contract of Sale.

Sale and agreement to sell.

4. (1) A contract of sale of goods is a contract whereby the seller transfers or agrees to transfer the property in goods to the buyer for a price. There may be a contract of sale between one part-owner and another.

(2) A contract of sale may be absolute or conditional.

(3) Where under a contract of sale the property in the goods is transferred from the seller to the buyer, the contract is called a sale, but where the transfer of the property in the goods is to take place at a future time or subject to some condition thereafter to be fulfilled, the contract is called an agreement to sell.

(4) An agreement to sell becomes a sale when the time elapses or the conditions are fulfilled subject to which the property in the goods is to be transferred.

Formalities of the Contract.

Contract of sale how made.

5. (1) A contract of sale is made by an offer to buy or sell goods for a price and the acceptance of such offer. The contract may provide for the immediate delivery of the goods or immediate payment of the price or both, or for the delivery or payment by instalments, or that the delivery or payment or both shall be postponed.

(2) Subject to the provisions of any law for the time being in force, a contract of sale may be made in writing or by word of mouth, or partly in writing and partly by word of mouth or may be implied from the conduct of the parties.

Subject-matter of Contract.

Existing or future goods.

6. (1) The goods which form the subject of a contract of sale may be either existing goods, owned or possessed by the seller, or future goods.

(2) There may be a contract for the sale of goods the acquisition of which by the seller depends upon a contingency which may or may not happen.

(3) Where by a contract of sale the seller purports to effect a present sale of future goods, the contract operates as an agreement to sell the goods.

Goods perishing
before making
of contract.

7. Where there is a contract for the sale of specific goods, the contract is void if the goods without the knowledge of the seller have, at the time when the contract was made, perished or become so damaged as no longer to answer to their description in the contract.

Goods perishing
before sale but
after agreement
to sell.

8. Where there is an agreement to sell specific goods, and subsequently the goods without any fault on the part of the seller or buyer perish or become so damaged as no longer to answer to their description in the agreement before the risk passes to the buyer, the agreement is thereby avoided.

The Price.

Ascertainment
of price.

9. (1) The price in a contract of sale may be fixed by the contract or may be left to be fixed in manner thereby agreed or may be determined by the course of dealing between the parties.

(2) Where the price is not determined in accordance with the foregoing provisions, the buyer shall pay the seller a reasonable price. What is a reasonable price is a question of fact dependent on the circumstances of each particular case.

Agreement to
sell at
valuation.

10. (1) Where there is an agreement to sell goods on the terms that the price is to be fixed by the valuation of a third party and such third party cannot or does not make such valuation, the agreement is thereby avoided:

Provided that, if the goods or any part thereof have been delivered to, and appropriated by, the buyer, he shall pay a reasonable price therefor.

(2) Where such third party is prevented from making the valuation by the fault of the seller or buyer, the party not in fault may maintain a suit for damages against the party in fault.

Conditions and Warranties.

Stipulations as
to time.

11. Unless a different intention appears from the terms of the contract, stipulations as to time of payment are not deemed to be of the essence of a contract of sale. Whether any other stipulation as to time is of the essence of the contract or not depends on the terms of the contract.

Condition and
warranty.

12. (1) A stipulation in a contract of sale with reference to goods which are the subject thereof may be a condition or a warranty.

(2) A condition is a stipulation essential to the main purpose of the contract, the breach of which gives rise to a right to treat the contract as repudiated.

(3) A warranty is a stipulation collateral to the main purpose of the contract, the breach of which gives rise to a claim for damages but not to a right to reject the goods and treat the contract as repudiated.

(4) Whether a stipulation in a contract of sale is a condition or a warranty depends in each case on the construction of the contract. A stipulation may be a condition, though called a warranty in the contract.

When condition
to be treated as
warranty.

13. (1) Where a contract of sale is subject to any condition to be fulfilled by the seller, the buyer may waive the condition or elect to treat the breach of the condition as a breach of warranty and not as a ground for treating the contract as repudiated.

(2) Where a contract of sale is not severable and the buyer has accepted the goods or part thereof, or where the contract is for specific goods the property in which has passed to the buyer, the breach of any condition to be fulfilled by the seller can only be treated as a breach of warranty and not as a ground for rejecting the goods and treating the contract as repudiated, unless there is a term of the contract, express or implied, to that effect.

(3) Nothing in this section shall affect the case of any condition or warranty fulfilment of which is excused by law by reason of impossibility or otherwise.

Risk *prima facie*
passes with
property.

26. Unless otherwise agreed, the goods remain at the seller's risk until the property therein is transferred to the buyer, but when the property therein is transferred to the buyer, the goods are at the buyer's risk whether delivery has been made or not:

Provided that, where delivery has been delayed through the fault of either buyer or seller, the goods are at the risk of the party in fault as regards any loss which might not have occurred but for such fault:

Provided also that nothing in this section shall affect the duties or liabilities of either seller or buyer as a bailee of the goods of the other party.

Transfer of title.

Sale by person
not the owner.

27. Subject to the provisions of this Act and of any other law for the time being in force, where goods are sold by a person who is not the owner thereof and who does not sell them under the authority or with the consent of the owner, the buyer acquires no better title to the goods than the seller had, unless the owner of the goods is by his conduct precluded from denying the seller's authority to sell:

Provided that, where a mercantile agent is, with the consent of the owner, in possession of the goods or of a document of title to the goods; any sale made by him, when acting in the ordinary course of business of a mercantile agent, shall be as valid as if he were expressly authorised by the owner of the goods to make the same; provided that the buyer acts in good faith and has not at the time of the contract of sale notice that the seller has not authority to sell.

Sale by one of
joint owners.

28. If one of several joint owners of goods has the sole possession of them by permission of the co-owners, the property in the goods is transferred to any person who buys them of such joint owner in good faith and has not at the time of the contract of sale notice that the seller has not authority to sell.

Sale by person
in possession
under voidable
contract.

29. When the seller of goods has obtained possession thereof under a contract voidable under section 19 or section 19A of the Indian Contract Act, 1872, but the contract has not been rescinded at the time of the sale, the buyer acquires a good title to the goods, provided he buys them in good faith and without notice of the seller's defect of title.

IX of
1872.

Seller or buyer
in possession
after sale.

30. (1) Where a person, having sold goods, continues or is in possession of the goods or of the documents of title to the goods, the delivery or transfer by that person or by a mercantile agent acting for him, of the goods or documents of title under any sale, pledge or other disposition thereof to any person receiving the same in good faith and without notice of the previous sale shall have the same effect as if the person making the delivery or transfer were expressly authorised by the owner of the goods to make the same.

(2) Where a person, having bought or agreed to buy goods, obtains, with the consent of the seller, possession of the goods or the documents of title to the goods, the delivery or transfer by that person or by a mercantile agent acting for him, of the goods or documents of title under any sale, pledge or other disposition thereof to any person receiving the same in good faith and without notice of any lien or other right of the original seller in respect of the goods shall have effect as if such lien or right did not exist.

CHAPTER IV.

PERFORMANCE OF THE CONTRACT.

Duties of seller
and buyer.

31. It is the duty of the seller to deliver the goods and of the buyer to accept and pay for them, in accordance with the terms of the contract of sale.

Payment and
delivery are
concurrent
conditions.

32. Unless otherwise agreed, delivery of the goods and payment of the price are concurrent conditions, that is to say, the seller shall be ready and willing to give possession of the goods to the buyer in exchange for the price, and the buyer shall be ready and willing to pay the price in exchange for possession of the goods.

Delivery.

33. Delivery of goods sold may be made by doing anything which the parties agree shall be treated as delivery or which has the effect of putting the goods in the possession of the buyer or of any person authorised to hold them on his behalf.

Effect of part delivery.

34. A delivery of part of goods, in progress of the delivery of the whole, has the same effect, for the purpose of passing the property in such goods, as a delivery of the whole; but a delivery of part of the goods, with an intention of severing it from the whole, does not operate as a delivery of the remainder.

Buyer to apply for delivery.

35. Apart from any express contract, the seller of goods is not bound to deliver them until the buyer applies for delivery.

Rules as to delivery.

36. (1) Whether it is for the buyer to take possession of the goods or for the seller to send them to the buyer is a question depending in each case on the contract, express or implied, between the parties. Apart from any such contract, goods sold are to be delivered at the place at which they are at the time of the sale, and goods agreed to be sold are to be delivered at the place at which they are at the time of the agreement to sell, or, if not then in existence, at the place at which they are manufactured or produced.

(2) Where under the contract of sale the seller is bound to send the goods to the buyer, but no time for sending them is fixed, the seller is bound to send them within a reasonable time.

(3) Where the goods at the time of sale are in the possession of a third person, there is no delivery by seller to buyer unless and until such third person acknowledges to the buyer that he holds the goods on his behalf:

Provided that nothing in this section shall affect the operation of the issue or transfer of any document of title to goods.

(4) Demand or tender of delivery may be treated as ineffectual unless made at a reasonable hour. What is a reasonable hour is a question of fact.

(5) Unless otherwise agreed, the expenses of and incidental to putting the goods into a deliverable state shall be borne by the seller.

Delivery of wrong quantity.

37. (1) Where the seller delivers to the buyer a quantity of goods less than he contracted to sell, the buyer may reject them, but if the buyer accepts the goods so delivered he shall pay for them at the contract rate.

(2) Where the seller delivers to the buyer a quantity of goods larger than he contracted to sell, the buyer may accept the goods included in the contract and reject the rest, or he may reject the whole. If the buyer accepts the whole of the goods so delivered, he shall pay for them at the contract rate.

(3) Where the seller delivers to the buyer the goods he contracted to sell mixed with goods of a different description not included in the contract, the buyer may accept the goods which are in accordance with the contract and reject the rest, or may reject the whole.

(4) The provisions of this section are subject to any usage of trade, special agreement or course of dealing between the parties.

Instalment deliveries.

38. (1) Unless otherwise agreed, the buyer of goods is not bound to accept delivery thereof by instalments.

(2) Where there is a contract for the sale of goods to be delivered by stated instalments which are to be separately paid for, and the seller makes no delivery or defective delivery in respect of one or more instalments, or the buyer neglects or refuses to take delivery of or pay for one or more instalments, it is a question in each case depending on the terms of the contract and the circumstances of the case, whether the breach of contract is a repudiation of the whole contract, or whether it is a severable breach giving rise to a claim for compensation, but not to a right to treat the whole contract as repudiated.

Delivery to carrier or wharfinger.

39. (1) Where, in pursuance of a contract of sale, the seller is authorised or required to send the goods to the buyer, delivery of the goods to a carrier, whether named by the buyer or not, for the purpose of transmission to the buyer, or delivery of the goods to a wharfinger for safe custody, is *prima facie* deemed to be a delivery of the goods to the buyer.

(4) If the goods are rejected by the buyer and the carrier or other bailee continues in possession of them, the transit is not deemed to be at an end, even if the seller has refused to receive them back.

(5) When goods are delivered to a ship chartered by the buyer, it is a question depending on the circumstances of the particular case, whether they are in the possession of the master as a carrier or as agent of the buyer.

(6) Where the carrier or other bailee wrongfully refuses to deliver the goods to the buyer or his agent in that behalf, the transit is deemed to be at an end.

(7) Where part delivery of the goods has been made to the buyer or his agent in that behalf, the remainder of the goods may be stopped in transit, unless such part delivery has been given in such circumstances as to show an agreement to give up possession of the whole of the goods.

How stoppage
in transit is
effected.

52. (1) The unpaid seller may exercise his right of stoppage in transit either by taking actual possession of the goods, or by giving notice of his claim to the carrier or other bailee in whose possession the goods are. Such notice may be given either to the person in actual possession of the goods or to his principal. In the latter case the notice, to be effectual, shall be given at such time and in such circumstances that the principal by the exercise of reasonable diligence, may communicate it to his servant or agent in time to prevent a delivery to the buyer.

(2) When notice of stoppage in transit is given by the seller to the carrier or other bailee in possession of the goods, he shall re-deliver the goods to, or according to the directions of, the seller. The expenses of such re-delivery shall be borne by the seller.

Transfer by buyer and seller.

Effect of
sub-sale or
pledge by
buyer.

53. (1) Subject to the provisions of this Act, the unpaid seller's right of lien or stoppage in transit is not affected by any sale or other disposition of the goods which the buyer may have made, unless the seller has assented thereto:

Provided that where a document of title to goods has been issued or lawfully transferred to any person as buyer or owner of the goods, and that person transfers the document to a person who takes the document in good faith and for consideration, then, if such last mentioned transfer was by way of sale, the unpaid seller's right of lien or stoppage in transit is defeated, and, if such last mentioned transfer was by way of pledge or other disposition for value, the unpaid seller's right of lien or stoppage in transit can only be exercised subject to the rights of the transferee.

(2) Where the transfer is by way of pledge, the unpaid seller may require the pledgee to have the amount secured by the pledge satisfied in the first instance, as far as possible, out of any other goods or securities of the buyer in the hands of the pledgee and available against the buyer.

Sale not
generally
rescinded by
lien or stoppage
in transit.

54. (1) Subject to the provisions of this section, a contract of sale is not rescinded by the mere exercise by an unpaid seller of his right of lien or stoppage in transit.

(2) Where the goods are of a perishable nature, or where the unpaid seller who has exercised his right of lien or stoppage in transit gives notice to the buyer of his intention to re-sell, the unpaid seller may, if the buyer does not within a reasonable time pay or tender the price, re-sell the goods within a reasonable time and recover from the original buyer damages for any loss occasioned by his breach of contract, but the buyer shall not be entitled to any profit which may occur on the re-sale. If such notice is not given, the unpaid seller shall not be entitled to recover such damages and the buyer shall be entitled to the profit, if any, on the re-sale.

(3) Where an unpaid seller who has exercised his right of lien or stoppage in transit re-sells the goods, the buyer acquires a good title thereto as against the original buyer, notwithstanding that no notice of the re-sale has been given to the original buyer.

(4) Where the seller expressly reserves a right of re-sale in case the buyer should make default, and, on the buyer making default, re-sells the goods, the original contract of sale is thereby rescinded, but without prejudice to any claim which the seller may have for damages.

CHAPTER VI.

SUITS FOR BREACH OF THE CONTRACT.

Suit for price.

55. (1) Where under a contract of sale the property in the goods has passed to the buyer and the buyer wrongfully neglects or refuses to pay for the goods according to the terms of the contract, the seller may sue him for the price of the goods.

(2) Where under a contract of sale the price is payable on a day certain irrespective of delivery and the buyer wrongfully neglects or refuses to pay such price, the seller may sue him for the price although the property in the goods has not passed and the goods have not been appropriated to the contract.

Damages for non-acceptance.

56. Where the buyer wrongfully neglects or refuses to accept and pay for the goods, the seller may sue him for damages for non-acceptance.

Damages for non-delivery.

57. Where the seller wrongfully neglects or refuses to deliver the goods to the buyer, the buyer may sue the seller for damages for non-delivery.

Specific performance.

58. Subject to the provisions of Chapter II of the Specific Relief Act, 1877, in any suit for breach of contract to deliver specific or ascertained goods, the Court may, if it thinks fit, on the application of the plaintiff, by its decree direct that the contract shall be performed specifically, without giving the defendant the option of retaining the goods on payment of damages. The decree may be unconditional, or upon such terms and conditions as to damages, payment of the price or otherwise, as the Court may deem just, and the application of the plaintiff may be made at any time before the decree.

I of 1877.

Remedy for breach of warranty.

59. (1) Where there is a breach of warranty by the seller, or where the buyer elects or is compelled to treat any breach of a condition on the part of the seller as a breach of warranty, the buyer is not by reason only of such breach of warranty entitled to reject the goods; but he may—

(a) set up against the seller the breach of warranty in diminution or extinction of the price; or

(b) sue the seller for damages for breach of warranty.

(2) The fact that a buyer has set up a breach of warranty in diminution or extinction of the price does not prevent him from suing for the same breach of warranty if he has suffered further damage.

Repudiation of contract before due date.

60. Where either party to a contract of sale repudiates the contract before the date of delivery, the other may either treat the contract as subsisting and wait till the date of delivery, or he may treat the contract as rescinded and sue for damages for the breach.

Interest by way of damages and special damages.

61. (1) Nothing in this Act shall affect the right of the seller or the buyer to recover interest or special damages in any case where by law interest or special damages may be recoverable, or to recover the money paid where the consideration for the payment of it has failed.

(2) In the absence of a contract to the contrary, the Court may award interest at such rate as it thinks fit on the amount of the price—

(a) to the seller in a suit by him for the amount of the price—from the date of the tender of the goods or from the date on which the price was payable;

(b) to the buyer in a suit by him for the refund of the price in a case of a breach of the contract on the part of the seller—from the date on which the payment was made.

CHAPTER VII.

MISCELLANEOUS.

Exclusion of implied terms and conditions.

62. Where any right, duty or liability would arise under a contract of sale by implication of law, it may be negatived or varied by express agreement or by the course of dealing between the parties, or by usage, if the usage is such as to bind both parties to the contract.

Reasonable
time a question
of fact.

63. Where in this Act any reference is made to a reasonable time, the question what is a reasonable time is a question of fact.

Auction sale.

64. In the case of a sale by auction—

- (1) where goods are put up for sale in lots, each lot is *prima facie* deemed to be the subject of a separate contract of sale;
- (2) the sale is complete when the auctioneer announces its completion by the fall of the hammer or in other customary manner; and, until such announcement is made, any bidder may retract his bid;
- (3) a right to bid may be reserved expressly by or on behalf of the seller and, where such right is expressly so reserved, but not otherwise, the seller or any one person on his behalf may, subject to the provisions hereinafter contained, bid at the auction;
- (4) where the sale is not notified to be subject to a right to bid on behalf of the seller, it shall not be lawful for the seller to bid himself or to employ any person to bid at such sale, or for the auctioneer knowingly to take any bid from the seller or any such person; and any sale contravening this rule may be treated as fraudulent by the buyer;
- (5) the sale may be notified to be subject to a reserved or upset price;
- (6) if the seller makes use of pretended bidding to raise the price, the sale is voidable at the option of the buyer.

Repeal.

65. Chapter VII of the Indian Contract Act, 1872, is hereby repealed. IX of 1872.

Savings.

66. (1) Nothing in this Act or in any repeal effected thereby shall affect or be deemed to affect—

- (a) any right, title, interest, obligation or liability already acquired, accrued or incurred before the commencement of this Act, or
- (b) any legal proceedings or remedy in respect of any such right, title, interest, obligation or liability, or
- (c) anything done or suffered before the commencement of this Act, or
- (d) any enactment relating to the sale of goods which is not expressly repealed by this Act, or
- (e) any rule of law not inconsistent with this Act.

(2) The rules of insolvency relating to contracts for the sale of goods shall continue to apply thereto, notwithstanding anything contained in this Act.

(3) The provisions of this Act relating to contracts of sale do not apply to any transaction in the form of a contract of sale which is intended to operate by way of mortgage, pledge, charge or other security.

ACT No. XXI OF 1930.

An Act further to amend the Indian Income-tax Act, 1922, for certain purposes.

4. After section 23 of the said Act the following section shall be inserted, namely:—

Power to assess individual members of certain firms, associations and companies.

“23A. (1) Where the Income-tax Officer is satisfied that any firm or other association of individuals carrying on any business, other than a Hindu undivided family or a company, is under the control of one member thereof, and that such firm or association has been formed or is being used for the purpose of evading or reducing the liability to tax of any member thereof, he may, with the previous approval of the Assistant Commissioner, pass an order that the sum payable as income-tax by the firm or association shall not be determined, and thereupon the share of each member in the profits and gains of the firm or association shall be included in his total income for the purpose of his assessment thereon.

Explanation.—A member of a firm or association who owns the whole or the major portion of the capital of the firm or association shall not by reason only of that fact be deemed to control the firm or association.

- (b) a company shall be deemed to be a company in which the public are substantially interested if shares of the company (not being shares entitled to a fixed rate of dividend, whether with or without a further right to participate in profits) carrying not less than twenty-five per cent. of the voting power have been allotted unconditionally to, or acquired unconditionally by, and are at the end of the previous year beneficially held by, the public (not including a company to which the provisions of this sub-section apply), and if any such shares have in the course of such previous year been the subject of dealings in any stock exchange in British India or are in fact freely transferable by the holders to other members of the public;
- (c) unless the contrary is proved, a company shall be deemed to be under the control of any persons where the majority of the voting power or shares is in the hands of those persons or of relatives or nominees of those persons;

- (4) (i) Where any member of a firm or association of individuals makes default in the payment of tax on his share of profits and gains which has been included in his total income under the provisions of sub-section (1), such tax may be recovered from the firm or association, as the case may be.
- (ii) Where the proportionate share of any member of a company in the undistributed profits and gains of the company has been included in his total income under the provisions of sub-section (2), the tax payable in respect thereof shall be recoverable from the company and may be recovered from such member, if there are not sufficient funds in the hands of the company to pay the tax, or if the winding up of the company has commenced.

- (iii) Where tax is recoverable from a company, firm or other association under this sub-section, a notice of demand shall be served upon it in the prescribed form showing the sum so payable, and such company, firm or association shall be deemed to be the assessee in respect of such sum, for the purposes of Chapter VI.
- (5) Where tax has been paid in respect of any undistributed profits and gains of a company under this section, and such profits and gains are subsequently distributed in any year, the proportionate share therein of any member of the company shall be excluded in computing his total income of that year."

(2) If the Income-tax Officer, the Assistant Commissioner or the Commissioner, in the course of any proceedings under this Act, is satisfied that the profits of a registered firm have been distributed otherwise than in accordance with the shares of the partners as shown in the instrument of partnership registered under this Act governing such distribution, and that any partner has thereby returned his income below its real amount, he may direct that such partner shall, in addition to the income-tax payable by him, pay by way of penalty a sum not exceeding the amount of income-tax which has been avoided, or would have been avoided if the income returned by such partner had been accepted as his correct income; and no refund or other adjustment shall be claimable by any other partner by reason of such direction.

RESOLUTION ON THE WORKING OF UNION BOARDS FOR THE YEAR 1928-29.

GOVERNMENT OF BENGAL.

Local Self-Government Department.

Local Self-Government.

CALCUTTA, THE 5TH MAY 1930.

RESOLUTION No. 1707L.S.-G.

Minister-in-charge: The Hon'ble Kumar Shib
Shekhareswar Ray.

Resolution on the working of Union Boards for the year 1928-29.

Number of Union Boards.

With the rapid increase in the number of Union Boards in the last two years it has been found impossible to include reference to these bodies in the Resolution on District Boards as was previously the practice. The difficulty of obtaining and compiling statistics from 4,000 village authorities has resulted in delays which it is hoped to overcome by evolving a smoother routine.

In the Resolution for 1927-28 attention was drawn to the remarkable increase from 2,260 to 3,005 union boards. Progress in 1928-29 surpasses even these figures, the total number of union boards rising to 4,089. There can be little doubt that, though the maximum has by no means been reached the year 1928-29 will represent the sharpest upward movement, and that the curve of annual increase of union boards will now flatten out as completion of the system is approached. The districts to which the increase was mainly attributable were Dacca, Mymensingh in Eastern Bengal, all districts in the Presidency Division except Nadia, and the districts of Dinajpur, Pabna and Malda. In these three districts and in Murshidabad district union boards made their appearance for the first time.

Union Board franchise and elections.

Union Boards are a school of franchise in which the voters on the electoral roll now number 2,293,000; and the importance of the movement in thus extending electoral consciousness to

the masses can hardly be over-estimated. As the number of members was 36,36 each voter has on the average something considerably better than one chance in hundred of entering on the career of village activities which membership of union board affords. It is to be feared that the keenest enthusiasm over these elections only makes itself felt where personal feuds lie behind, as is reported in Burdwan district; and recourse to the civil courts to thwart the election is an unwelcome feature noticed in the 24-Parganas. But on the whole, taking the average of these very numerous local elections the Commissioners' reports show that they functioned as well as could be expected at this early stage.

Popularity of the Union Board Movement.

It is fair to say that the formation of union boards is now generally welcomed except in localities where there are special influences, such as a political campaign, or the hostility of defeated candidates directed to thwarting the movement. The chief danger, apart from political campaigns, lies in the apprehension so often felt that the Union Board means increased taxation. Here and there perhaps the over enthusiasm of supporters of the movement, anxious to see the powers of taxation for improvement made early use of by the new boards, may have contributed to these apprehensions. Any such reaction is to be avoided, and the policy of Government would be rather to let a union board find its own specific needs and then have recourse to section 37 (b) of the Act to meet them, than to encourage recourse to this section in order to raise funds for comparatively aimless improvements, the need for which has not yet been appreciated by the villagers contributing to the cost.

Financial Statistics.

The total receipts of Union Boards, excluding opening balances, amounted to Rs. 71,42,000 of which Rs. 53,80,000 was realized on account of the union rate, Rs. 2,29,000 as rents of Chaukidari Chakran lands, Rs. 1,73,000 from pounds and ferries and Rs. 1,14,000 and Rs. 3,37,000 as grants from the District Board respectively under sections 33 and 45 of the Village Self-Government Act.

These figures leave a clear balance of nearly twenty-three lakhs spent by village authorities for the miscellaneous purposes of the Act such as communications, public health and medical relief, water-supply and education. No more striking criterion could be found of the progress made in a single decade in the field of village self-government in Bengal.

Individual Activities of Union Boards.

To those acquainted with Union Board work one of its most noticeable features is the growing touch of individuality which marks so many of these local authorities as their resources and activities expand; and the Minister is glad to find mention of some of the more prominent among them in the Commissioners' reports. In the Burdwan District the Panchra Union Board sank tube wells, reserved tanks and maintained an irrigation channel. The Simulia Union Board opened a dispensary and there are now no less than twenty-one union board dispensaries in this district.

In Birbhum District the Narayanpur and Kusumba Union Boards co-operated in the construction of a road with a bridge costing Rs. 1,800. In the Bogra District the Union Boards of Rukindipur and Santahar are specially mentioned for their dispensary services.

Some of the larger union boards show a budget exceeding that of the smaller municipalities. Rampurhat Union Board, for instance, having an assessment list under section 37(b) of the Act alone, apart from its chaukidary charges, of Rs. 6,700.

Attitude of District Boards.

With the exception of the district of Bankura in which a deliberate campaign against Union Boards was engineered District Boards were well disposed to the Union Board movement and gave them a fair measure of financial support. There is great disparity, however, in the interpretation by different district boards of their obligation under section 45 of the

Act to make a "suitable grant" to union boards raising rates under section 37(b) for purposes of improvement. At the one extreme the District Board of the 24-Parganas made grants of Rs. 36,420 as against union rates under section 37(b) of only Rs. 17,134, whereas at the other the Faridpur District Board granted only Rs. 19,321 as against union rates of Rs. 1,26,417. No hard and fast rule can be laid down, but clearly some mean should be followed between these two extremes and District Boards might well consider whether, so far as their resources permit, the principle of approximating their grants to one-third of the rate raised under section 37(b) (the usual proportion for a Government grant against local contributions), would not form a useful guide. This would not however preclude District Boards from making a grant to a Union Board on account of efficient administration, even when no rate under section 37(b) has been raised, as contemplated by the rules. The total amount paid by District Boards to Union Boards was just over four lakhs, including Rs. 1,14,000 paid to Union Boards under section 33 for the management of institutions and works transferred to them by District Boards. In addition the Union Boards derived from pounds a total income of Rs. 1,70,085 which till recently constituted part of the assets of District Boards. The ultimate problem in the financial relations of District Boards to Union Boards lies in determining the extent to which the former can transfer to the latter assistance drawn from their inelastic sources of revenue without hindering the proper discharge of their own functions.

By order of the Government of Bengal
(Ministry of Local Self-Government),

C. W. GURNER,

Secretary to the Government of Bengal.

No. 1561Edn. — 26th April 1930. — The report on the Bruce Institution for the year 1929 is published for general information.

(2) The following were the Governors at the end of the year:—

The Hon'ble the Chief Justice of Bengal (*ex-officio*).

The Most Revd. the Lord Bishop of Calcutta (*ex-officio*).

The Surgeon-General with the Government of Bengal (*ex-officio*).

The Hon'ble Mr. Justice R. E. Jack, I.C.S.

The Ven'ble John Grimes (Archdeacon of Calcutta).

The Revd. Father F. Keyeux, S.J.

The Revd. E. S. Johnson.

Maurice Remfry, Esq.

W. F. Papworth, Esq. (Inspector of European Schools, Bengal).

Mrs. H. Barton.

II. **Capital and Income.**—The capital of the institution is Rs. 10,46,200 in $3\frac{1}{2}$ per cent. Stock Certificates of the year 1865 which are held by the Controller of Indian Treasuries, while in addition there are temporary investments from savings which stood at the end of

the year at Rs. 39,600 (as compared with Rs. 32,600 at the end of 1928). The difference of Rs. 7,000 is due to Rs. 5,000 6 per cent. Bonds of 1930, which had matured, being converted into Rs. 5,200 5 per cent. Loan of 1939-44 and Rs. 300 more of the same loan being purchased (making a total increase of Rs. 500); and to Rs. 9,500 being placed on fixed deposit in November 1929 in the Mercantile Bank of India for three months, as compared with a deposit of only Rs. 3,000 at the end of the previous year. The total interest obtained in 1929 was Rs. 37,930-2-2 (against Rs. 37,828-13-10 in 1928). The total income in 1929 was Rs. 38,186-4-8, including Rs. 256-2-6 by refund, etc., as noted below:—

	Rs.	A.	P.
Refund on account of one ward for half a month	12	8	0
Refund on account of one ward for five months	125	0	0
Refund on conversion of six per cent. Bonds of 1930	82	0	0
Refund on purchase of 5 per cent. Loan of 1939-44 for Rs. 300	7	8	6
Refund of income tax	29	0	0
Total	256	2	6

The total income in 1928 was Rs. 37,957-13-10.

The amounts received as interest, etc., were kept with the Imperial Bank of India. During the year the following amounts were transferred to fixed deposit for short periods in order to earn some extra interest: Rs. 6,000 for three months in May 1929 at $3\frac{1}{2}$ per cent. per annum, and Rs. 9,500 in November 1929 for three months at 4 per cent. per annum. The year opened with a balance of Rs. 10,583-3-10 *plus* Rs. 3,000 in fixed deposit, and closed with a gross balance of Rs. 13,328-4-4, of which Rs. 9,500 is in fixed deposit in the Mercantile Bank of India. The nett closing balance therefore was Rs. 3,828-4-4.

During the year it was found necessary to remove six more wards on account of unsatisfactory work, with the result that, for the first time for four years, there was a slight decrease in the total number of wards on the 31st December, as will be seen from the table below:—

It will be seen from this summary that, in consequence of various measures taken by the Governors during the year, expenditure was kept within income and the financial condition of the institution considerably improved.

Four of the above mentioned total of 105 wards left at the end of the year, so that at the time of writing (4th March 1930) there were actually 101 + 10 new wards, i.e., 111 wards on the rolls, as compared with 116 on the 12th March 1928.

III. Election to vacancies, etc.—(1) The annual election of wards was held on Monday, 2nd December 1929. There were actually 18 vacancies, but, in consideration of the financial position of the Trust, the Governors decided to advertise eight vacancies only, and 51 applications were received. These were considered by a sub-committee consisting of (1) The Revd. Donald S. McKenzie, (2) The Revd. Father F. Keyeux, S.J., (3) The Revd. E. S. Johnson, (4) Mr. Maurice Remfry and (5) Mrs. H. Barton, and, on their recommendation, eight girls were elected, while two were kept as reserves for future vacancies. These two girls were eventually taken in, as it was found that the budget would be able to bear the charge. Of the ten girls thus elected (against 2 in the previous year), four were placed in the Loreto Convent, Entally, two in the Calcutta Girls' High School, one in St. Thomas' School, Kidderpore, one in the Loreto convent, Asansol, and two in the Pratt Memorial School.

Favourable medical and school reports were received regarding the twelve wards elected in January 1929, and accordingly their admission was confirmed by the Governors at their meeting held on the 2nd December 1929. (2) Of the 18 wards withdrawn during the year under report, four had attained the age 17, six were removed from school on account of unsatisfactory progress, seven on the expiry of the extensions granted to them, and one left on account of ill health.

(3) Of the 13 girls who had been withdrawn during the year 1928, five were removed on account of unsatisfactory progress and one for subordination and misconduct. Of the remaining seven, one left for Rangoon, while the address of two others could not be traced.

The fourth joined the Campbell Medical School and Hospital and passed the Primary Licentiate Examination of the State Faculty of Bengal and is now reading in the 2nd year class. The Superintendent (Major Mukherjee, I.M.S.) reports that she is a regular and studious girl. It will take her another three years to complete the full course. The fifth, after leaving school, has been seeking employment, while the sixth, who is still under age, is waiting to be trained as a nurse. The seventh girl, who had left school at the age of 18, joined the Calcutta Girls' School as a pupil teacher.

(4) At the close of the year, the 105 wards on the rolls were distributed as follows:—

Loreto Convent, Entally—				
1st Boarding	32
2nd do.	10
Calcutta Girls' School	17
Pratt Memorial School	2
St. Thomas' School, Kidderpore	12
St. Paul's Mission Home	9

Loreto Convent, Asansol	13
St. Mary's Convent, Naini Tal	1
Dow Hill Girls' School, Kurseong	1
Queen's Hill Girls' School, Darjeeling	2
Bishop Westcott's Girls' School, Ranchi	1
Wynberg School, Mussoorie	1
Total	105

(5) The following table gives particulars as to the class and religion of the wards at the close of the year:—

Class.	Roman Catholic.	Church of England.	Non-Conformist.	Total.
Orphans or deserted by their parents ..	18	10	..	28

MAY 8, 1930.

(6) With the exception of one ward at St. Paul's School and one ward in the Calcutta Girls' School, the general health of the girls on the Foundation was on the whole satisfactory. Four girls suffering with defective sight were supplied with spectacles. Those wards whose teeth required attention duly received it.

IV. Education and maintenance.—(1) The nature of the education generally imparted to the wards is that prescribed for a higher grade school under the Code of Regulations for European Schools in Bengal, but in a few cases also that for secondary and primary schools.

(2) The Governors are anxious that their wards should become useful citizens when they leave school and have accordingly asked the Visiting Governors to make, in consultation with the school authorities, definite proposals, where this seems desirable, for training wards who have attained or are about to attain the age of 14, so that the last three years of their school life may be spent to the best advantage, and be a preparation for earning a living. A circular on this point was issued last year to the heads of schools where Bruce wards are educated.

(3) During the year under review, one ward passed the I.A. Examination in the first division, one the Junior Cambridge Examination with credit, and one the Higher Grade School Final Examination in Domestic Science, with distinction in Needle-work and Home-nursing. One ward obtained a certificate in the Lower Division Musical Examination of the Royal Academy in Pianoforte and Theory—Division II., one passed the Higher Grade School Final Examination (Commercial course), and two others obtained the junior certificate, St. John's Ambulance First Aid.

(4) Under the rules, a ward is not ordinarily allowed to remain on the Foundation after the age of 17, when an outfit grant of Rs. 100 is generally given to enable her to make a start in life. In cases where wards wish to be trained as teachers and have the support of the school authorities, or where some special training is recommended, or when a ward is preparing for a higher examination such as Intermediate Arts or Commercial Course examination, and in the event of the ward being reported on well, some extension of the period of benefit is generally allowed. Four wards were granted extensions during the year under report.

(5) The monthly average cost for the education and maintenance of each ward amounted to Rs. 27-8-3 against Rs. 26-11-0 in 1928 in the preceding year.

(6) The amounts paid under the different heads of expenditure were as noted below:—

V. Inspection.—The Rev. E. S. Johns was appointed Visiting Governor for the first half, and Mr. Maurice Remfry for the second half of the year 1929, to visit the schools Calcutta having Bruce wards. Revd. E. Johnson stated that he spoke to each old ward regarding the question of their future and urged on all of them to give the matter their serious thought. He also stated that he was struck very happily with the interest shown by the heads of the schools in the Bruce wards and believed they are making every effort to co-operate with the Governors securing the best results. Mr. Remfry reported that he saw all the wards in the different schools and found that they were well-cared for. He found the wards enjoying good health, especially those in the St. Thomas School, and they seemed happy in their respective schools.

VI. Meetings.—Apart from a meeting on 2nd January 1929, deferred from the previous year, four meetings were held during the year and among the resolutions passed the following may be noted:—

(a) That the following be added to rule of the rules prescribed by the Governors:

“That the education and maintenance fee for the first month should be paid, even if the girl who is absent has left the fee would be due in lieu of notice

“That in future a budget for the following year be submitted to the Governors in September of each year (to enable the financial position to be understood and decision made as to the number of new Bruce wards to be appointed in the following December

NOTIFICATIONS.

Simla, the 29th April 1930.

No. F-43/IV-R.-II.—The Despatch from the Secretary of State, No. 1-Accounts, dated the 10th April 1930, with its enclosure, relating to the Indian Civil Service Family Pension Rules, is published for general information:—

To His Excellency the Right Honourable the Governor General of India in Council.

Indian Civil Service Family Pensions: approval of proposals made in connection with valuation as at 31st March 1928. A. G. 2150/30.

MY LORD,

I have considered in Council the replies received from subscribers to the circular letter issued in October last submitting proposals for the distribution of the surplus reported on the valuation, as at 31st March 1928, of the Indian Civil Service Family Pension Scheme.

2. The replies received both in this country and in India, indicate that the proposals are approved by a large majority of the subscribers, and I have therefore decided to approve them without alteration. I summarise below, for convenience, the measures sanctioned.

A. The permanent addition to the basic rate of pensions will in future be at the rate of 33½ per cent. in place of 20 per cent. as hitherto.

B. The basic rate of pensions will, until further notice, be subject in addition to a temporary increase of 16½ per cent. The total pension payable will thus remain at a rate 50 per cent. above the basic.

C. Monthly contributions will in future be at the following rates, according to the subscriber's date of entry:—

For entrants before 1st April 1916, 75 per cent. of basic rates.

For entrants between 1st April 1916 and 31st July 1925, 87½ of basic rates.

For entrants between 1st August 1925 and 31st March 1928, during first seven years 112½ per cent. of basic rates, thereafter 100 per cent. of basic rates.

For entrants after 31st March 1928, 112½ per cent. of basic rates.

D. Subscribers who entered before 1st April 1910 will be relieved of payment of subscriptions after 25 years' service. This will apply to subscribers who, on retiring under the Premature Retirement Rules, elected to continue subscriptions under options B or C.

E. Subscribers marrying after retirement who take advantage of the provisions of Rule 23 will in future pay in place of the donations on marriage hitherto prescribed in the Seventh Schedule, enhanced donations at a rate £200 in excess of that applicable to subscribers marrying before retirement. The donation will, however, secure pension not only to the wife but to the children, if any, of the marriage. Subscribers who have married after retirement and paid donations for wife and children at the rates hitherto prescribed in Schedule Seven will be entitled to a refund of the amount paid in excess of the new rate, but without interest. Subscribers who have paid donation for a wife but have not reported the birth of a child or children may secure pension for such child or children on paying the difference between the old and the new rates of donation without interest.

Subscribers on active service whose subscriptions cease after 25 years will be liable for the enhanced donations applicable to retired subscribers subject to the provision that the total amount so paid shall not exceed that which they would have paid under the normal rules applicable to Class I subscribers.

F. Pensions will be paid to sons over the age of 24 on production of proof that by reason of physical or mental infirmity they were not at that time or at any subsequent time capable of earning a living.

3. In view of the fact that the Actuary's estimates of cost assume that the changes proposed come into force on 1st January 1930, I have decided that they shall have retrospective effect from that date.

I enclose a copy of a Resolution passed by me in Council making the necessary alterations in the Rules to give effect to the foregoing decisions.

4. I request that you will publish this Despatch, with its enclosure, in the *Gazette of India*, and advise me by telegram of the date of publication.

I have the honour to be,

My Lord,

Your Lordship's most obedient humble
Servant.

FUNDS.

No. 219.—The following Despatch No. 2 (Accounts), dated the 10th April 1930, from the Secretary of State for India, is published for general information:—

Indian Military Service Family Pensions and Indian Widows' and Orphans' Fund: pensions to sons over the age of 21 years who are incapable of earning a livelihood.
A. G. 3089/30.

I have recently had under my consideration representations received from subscribers under the Indian Civil Service Family Pension Rules regarding the desirability of providing, beyond the age at which pensions normally cease, for sons who are incapacitated from earning a livelihood. The arguments for such provision being clearly of equal weight in the case of other pension schemes, I requested the Government Actuary, in reporting on the proposal in relation to the Indian Civil Service Family Pension Scheme, to advise at the same time as to the possibility of its adoption in the case of the Indian Military Service Family Pension Scheme, the Indian Military Widows' and Orphans' Fund and the Superior Services (India) Family Pension Fund. After consideration of the experience of the older Funds, the rules of which included in many cases provisions of the type contemplated, Sir Alfred Watson has expressed the opinion that it would be practicable to add a similar provision to the rules of the later Funds, without requiring special contributions, provided that a small reservation was made on the occasion of each valuation to provide for the concession. A proposal to this effect has been circulated to subscribers under the Indian Civil Service Family Pension Scheme in connection with other proposals consequent on the recent valuation; and a resolution in Council making the necessary amendment in the Rules of that Scheme is being forwarded with my Despatch No. 1, Accounts, of to-day's date. In view, however, of the comparative unimportance of the measure from a financial point of view, I have not thought it necessary in the case of the remaining Schemes to await a valuation or to make special reference to subscribers.

2. I have accordingly decided, as regards the two military Schemes, to substitute for Article 20 of the Indian Military Service Family Pension Scheme and Article 21 of the Indian Military Widows' and Orphans' Fund the following:—

“In any case where it is shown—

“(a) that a male orphan on attaining

the age of 21 is by reason of mental or physical infirmity incapable of earning a livelihood, or

“(b) that a male orphan over the age of 21 at his father's death is not then and has not been since the age of 21, capable of earning a livelihood,

the Secretary of State in Council may, at his discretion, grant to such orphan, under such conditions as he may prescribe, a pension of an amount not greater than that payable to daughters over 21 years of age.”

The provisions of this Article will have effect from 1st January 1930.

3. I request that this Despatch may be published in the *Gazette of India* on the same day as my Accounts Despatches Nos. 1 and 3 of to-day's date. The latter deals with the provision made for incapacitated sons of subscribers to the Superior Services (India) Family Pension Fund.

RESOLUTION ON THE SURVEY AND SETTLEMENT REPORTS FOR THE YEAR ENDING THE 30TH SEPTEMBER 1929.

GOVERNMENT OF BENGAL.

Revenue Department.

Land Revenue.

DARJEELING, THE 3RD MAY 1930.

RESOLUTION— No. 299 T.R.

READ—

The Survey and Settlement Reports, for the year ending 30th September 1929.

Lieutenant-Colonel J. D. Campbell, D.S.O., R.E., the Director, Eastern Circle, Survey of India, twice inspected the offices of the Bengal Traverse Party and Bengal Drawing Office. The Governor in Council has noticed with pleasure that Lieutenant-Colonel Campbell was satisfied with the quality of the technical work of the Bengal Survey Department.

2. Traverse survey was done over an area of 676 square miles in Burdwan and 695 square miles in Malda. The area traversed in the Burdwan district was very unhealthy, especially at the beginning of the field season when nearly half of the staff fell ill. In Malda, the area traversed was also very unhealthy and contained a large number of beels which presented many difficulties.

3. The first batch of maps of the district of Malda prepared by the Air Survey Company proved inaccurate and unsuitable, and the commencement of settlement operations in the district had to be postponed until the following year. Government cancelled the agreement with the Air Survey Company and had to revert to the ordinary methods of survey. By February 1929, the Company succeeded in perfecting their technique, an accurate method of sheet reproduction was evolved, and it was decided to take up an experimental area of 130 square miles by air survey. Under a fresh contract made with the Company an area of about 104 square miles was surveyed from the air. The photographs of this area which were supplied by the Company were tested by Kanungos and found to be accurate

and satisfactory. It can now be said that the air survey methods which have been evolved are accurate and they have the advantage of speed and economy over the ordinary methods of survey.

4. Major settlement operations were in their closing stages in the districts of Khulna and Pabna-Bogra, but were in full swing in Murshidabad-Birbhum, 24-Parganas, Burdwan, and in Chittagong, with different stages of work in progress. Operations were also started in Malda.

5. The total area for which a record-of-rights has been completed is 51,308 square miles out of 65,304 in the province to which the Bengal Tenancy Act applies. The popularity of the record-of-rights is fast increasing, and there is a growing demand for copies of khatians and maps which people now take care to preserve. The maps and records have been found extremely useful in every branch of the administration. The improvement in the quality of printed maps was well maintained; they were appreciated and used by the public and the staff of the different branches of the administration.

6. Khan Bahadur M. A. Mumin was in charge of the department up to the 26th March 1929, when Mr. L. R. Fawcett, I.C.S., took over and remained in charge for the rest of the year except from 10th August to 9th September 1929, when he was on leave and Mr. B. E. J. Burge, I.C.S., Settlement Officer of the 24 Parganas, officiated for him. The Governor in Council has much pleasure in acknowledging the efficiency and care with which the Departments of Survey and Settlement have been managed in the year under review. His Excellency in Council is also pleased to direct that the good work done by the Survey Officers, Mr. I. Newton and Captain C. B. Sexton, and Settlement Officers, Messrs. J. B. Kindersley, B. E. J. Burge, K. A. L. Hill, M. O. Carter and Rai Bijoy Behari Mukharji Bahadur, as also by the other officers mentioned in the concluding paragraphs of the Survey and Settlement Reports, be recorded.

Order—Ordered that this resolution be published in the Gazette

**DEPARTMENT OF AGRICULTURE,
BENGAL.****Final Forecast of the Wheat Crop of Bengal,
1929-30.**

Dacca, the 10th May 1930.

(*Note.*—On an average of the five years ending 1927-28, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (a) British India and (b) in the territory now reported on has, in the five years ending 1927-28, averaged at (a) 36·9 and (b) 11·4 per cent., respectively.)

Character of the season.—In the third forecast issued in April last the weather was reviewed as having been satisfactory for the province. Since then conditions have remained practically unchanged except in the important district of Malda, where insufficient rainfall at the time of maturity somewhat reduced the outturn.

Acreage.—According to the estimates of District Officers, the total area sown is 126,200 acres this year as against 122,900 acres last year.

Outturn.—The provincial outturn as worked out from the district estimates is 81 per cent. of the normal as against 80 per cent. last year. Taking the normal yield to be 8½ maunds per acre, the gross yield of the crop for the province is estimated at 32,900 tons this year as against 31,600 tons or about 4 per cent. higher than last year.

At the end of April the average wholesale price of wheat at the principal marts of the province was Rs. 6-8-8 per maund or about 6 per cent. lower than the price ruling at the corresponding period of last year. The average wholesale price of common rice at the principal marts, on the other hand, was Rs. 6-0-10 per maund or about 4 and 19 per cent. lower than the prices ruling at the corresponding periods of last year and the year preceding, respectively.

**DEPARTMENT OF AGRICULTURE,
BENGAL.****Third and Final Forecast of the Spring Oilseed
Crops of Bengal, 1929-30.**

Dacca, the 12th May 1930.

(*Note.*—On an average of the five years ending 1927-28, the area under linseed in Bengal has represented some 3·2 per cent. and that under rape and mustard 11·7 per cent. of the total area under these crops in British India.)

Character of the season.—As reported in the second forecast wet weather in October somewhat interfered with the sowing operations in parts of North Bengal. Subsequent dry weather was helpful to the growth. Winter rain generally improved the prospects of late crops. On the whole a satisfactory outturn was reaped.

Acreage.—Oilseeds are principally grown in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions the cultivation is small. The total area under these crops (excepting sesamum, for which separate forecasts are issued) is estimated at 868,300 acres this year as against 884,300 acres last year.

Outturn.—From the District Officers' estimates the provincial outturn of the different oilseed crops works out at 85 per cent. of the normal as against 79 per cent. last year.

Taking 5½ maunds as the normal rate of yield per acre for linseed, 6 maunds for rape and mustard and 4½ maunds for other oilseeds, the total yield of the crops for the province is estimated at 158,700 tons this year as against 149,400 tons or about 6·2 per cent. higher than last year.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 14th May 1930.

Summary.—During the week the rainfall was heavy in parts of the Chittagong Division and generally light elsewhere. Sowings of jute and paddy are much advanced in East and North Bengal and continue in West Bengal. Weeding of jute and paddy is proceeding. The outlook of standing crops is reported to be generally promising. The average price of common rice for the province has remained practically stationary as compared with that of the previous week.

Regulations as to the physical examination of candidates for direct appointment to the Provincial Services in Bengal.

General physical requirements.

I. A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with the efficient performance of his duty.

II. In the examination of candidates the Medical Board will apply the following table of correlation of age, height and chest girth :—

Age.	Height without shoes.		Chest measurement on full expiration.	Chest measurement on full inspiration.
	Inches.	Inches.		
21 and upwards	62½ and under 65	65	30	32
	65	„ 68	31	33
	68	„ 70	32	34
	70	„ 72	33	35½
	72 and upwards		34	36½

III. *Measurement of chest.*—The candidate will be made to stand erect with his feet together and to raise his hands above his head. The tape will be carefully adjusted round the chest, with its posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as is possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape will be carefully gathered in during the process, and when the minimum measurement is reached it will be recorded. The candidate will then be directed to inflate his chest to its utmost capacity. The maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and maximum will then be recorded. In all doubtful cases the functional capacity of the lungs may be tested by means of the spirometer. The minimum vital capacity as tested by the spirometer shall in no case be below 180 cubic inches.

IV. The hearing must be good.

V. The speech must be without impediment.

VI. The teeth must be in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth, where necessary, for effective mastication.

VII. The chest must be well formed, the lungs and heart sound.

VIII. Rupture, hydrocele, varicocele, varicose veins in a severe degree, or other conditions likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation. Where any candidate has been rejected and has subsequently undergone one or other operation for hernia, hydrocele, varicocele or varicose veins, the Board may pass him, provided they are satisfied that the candidate has been radically cured.

SCHEDULE IV—continued.

IX. The limbs, feet and toes must be well formed and developed, with free and perfect motion of all the joints.

X. A candidate must have no congenital malformation or defect likely to interfere with his efficiency.

XI. A candidate must not be subject to chronic skin disease.

XII. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.

A candidate of twenty-five years of age or over may be admitted, provided ametropia in either eye or both eyes does not exceed - 3.5 D, and provided his corrected vision reaches $\frac{6}{6}$ in each eye.

3. Candidates with hypermetropia may be admitted, provided the acuteness of vision is—

4. In cases of defective vision due to nebula of the cornea, the candidate will be rejected.

5. Squints or any morbid conditions subject to risk of aggravation or recurrence in either eye may cause rejection of a candidate.

6. Colour vision need not be taken into account.

Form of medical certificate for candidates for direct appointment to the Provincial Services in Bengal.

The attention of the Medical Board is specially directed to the following:—

No person will be deemed qualified for admission to the service who shall not satisfy Government that he has no disease, constitutional affection or bodily infirmity, unfitting him, or likely to unfit him, for the service. It should be understood that the question of fitness involves the future as well as the present and that one of the main objects of medical examination is to secure continuous effective service, and in the case of candidates for permanent appointment to prevent early pension. It is at the same time to be noted that the question is one of the likelihood of continuous effective service, and that the rejection of a candidate need not be advised on account of the presence of a defect which in only a small proportion of cases is found to interfere with continuous effective
